Re: RE: Northern New England Telephone Operations LLC d/b/a FairPoint Communications – NNE Quality of Service Report for February 2012

Dear Ms. Bailey:

In accordance with the New Hampshire Public Utilities Commission's ("Commission's") Electronic Report Filing program, Northern New England Telephone Operations LLC d/b/a FairPoint Communications - NNE ("FairPoint") has electronically filed the Quality of Service Report for February 2012 and is also filing the attached paper copy.

Based on post SQI audit meetings and agreement with the Commission's Staff, FairPoint is removing Metric No. 8 "Percent Installation Service Orders Met within 30 Days" and Metric No.19 "Total Held Orders On Hand (Month End)" from SQI reporting beginning with the January 2012 report. Additionally, in the course of reviewing data to report Metric No. 17 "Percent Call Completion", FairPoint discovered data irregularities which needed to be investigated. The investigation could not be completed to file the metric results for February with this filing. FairPoint will file an update as soon as the metric data is validated.

No Exchanges met or exceeded a 1.58 customer trouble report rate for three consecutive months ending with the February 2012 report.

Please return the copy of this filing marked "Receipt" with your stamp of receipt.

I can be reached at 603-656-8102 should you have any questions.

Sincerely,

Ryan P. Taylor
