## **Energy Efficiency Resource Standard (EERS) Stakeholder Workshops**

The Energy Efficiency Resource Standard (EERS) Committee of the EESE Board is convening a series of Stakeholder Workshops as NH prepares to implement the EERS Plan detailed in the Public Utilities Commission Order 25.932:

<http://www.puc.nh.gov/Regulatory/Orders/2016orders/25932e.pdf>

Implementation of an EERS is expected to increase investment in cost-effective energy efficiency resources, reduce energy costs for NH ratepayers, and create new jobs.

### **Stakeholder Workshops: February 10 – March 3, 2017**

The workshops will provide key stakeholders in NH and the general public the opportunity to influence, early in the planning process, how utilities serving the state are intending to achieve the EERS over the next three years. Utility representatives will describe their plans, and stakeholders will have the opportunity to ask questions about and provide feedback on the ideas presented. The workshops are being offered in advance of submittal of the utilities' draft plans to the EESE Board in April of 2017.

### **How to Participate**

All workshops are open to the public, and will be held on the dates and times listed below and at the locations noted. Stakeholders can participate in person or by calling into the teleconference number and connecting to the Go To Meeting link below. The presentations from the workshops will be made available after each event.

**Teleconference number:** 1-800-326-0013

**Password:** 9065699#
