
NH Energy Efficiency Resource Standard

Three-Year Program Plan

Stakeholder Workshop 2

**Program Cost Effectiveness Test
&
Approaches for Assessing
Non-Energy Impacts**

Friday, February 17, 2017
1:00 pm to 4:30 pm

Convened by

Energy Efficiency and
Sustainable Energy Board

Purpose

- Explain the Total Resource Cost (TRC) test used in NH for determining cost-effectiveness.
 - Identify opportunities and challenges for meeting the EERS targets given trends in avoided costs and related issues.
 - Learn about approaches used in other jurisdictions for valuing non-energy impacts (AKA benefits) from energy efficiency investments.
 - Obtain stakeholder feedback and ideas to inform EERS Three-Year Program Plan under development by the utilities.
 - Identify next steps.
-

Agenda

1. Welcome and Introductions – Leszek Stachow
2. Purpose, Agenda, and Outcomes – Christine Donovan
3. Overview of NH TRC Test, Opportunities and Challenges – Joe Swift
4. Examples of Approaches for Valuing Non-Energy Impacts –
MA – Mary Downes
RI – Brian Buckley
VT – Erik Brown
5. Stakeholder Feedback and Ideas – Group
6. Next Steps – Christine
7. Adjourn – 4:30 pm

Context & Desired Outcomes

- The NH utilities are required to submit their EERS Three-Year Program Plan to the PUC by September 1, 2017.
 - Per the PUC, the EESE Board is the convening body for stakeholder input into the plan.
 - Desired Outcomes:
 - Broad support across a diverse group of stakeholders for the plan to be filed in September.
 - A recommendation from the EESE Board to the PUC that the plan be approved.
 - The desired outcomes may or may not be achieved.
-

Stakeholder Feedback and Ideas

Suggestions are most wanted on enhancements / additions that:

- Increase program yields
 - Serve more customers
 - Increase customer savings
 - Further develop and expand NH's product and service provider infrastructure
 - Result in sustained, orderly market development
 - Stimulate private investment and the use of new financing approaches
 - Increase awareness of the job creation and economic development impacts of EE
-

Next Steps - Workshops
