

The NEW HAMPSHIRE PUBLIC UTILITIES COMMISSION has a full-time opening for a SENIOR ADVISOR (ANALYST).

Join a dynamic and collaborative team serving New Hampshire to ensure that the state's regulated public utilities provide safe, reliable, and adequate service at just and reasonable rates.

- Applicants must hold a bachelor's degree (master's or PhD preferred) in a quantitative field from a recognized college or university with a major study in Data Science, Computer Science, Statistics, Mathematics, Economics, Finance, Accounting, Operations Research, Applied Analytics, or Engineering.
- Four years of utility industry relevant technical or finance experience is desired. The applicant must be a good team player and able to work independently.

Benefits include but are not limited to paid state holidays, comprehensive Insurance (family plan), retirement plan, deferred compensation plan, paid time off, flexible working hours (hybrid), NH state education and training programs, employee assistance program, work-life-balance, and opportunities for expanded job responsibilities.
