Re: Docket No. DT 07-099, Level 3 Appeal of NANPA Denial of Numbers

Dear Doug:

The Commission has received your appeal of NANPA's denial of Level 3's recent numbering requests. In order for Staff to make a recommendation on your request we would like to clarify several issues that stem from your filing. Accordingly, we ask that Level 3 respond to the following questions by COB, Friday, November 30, 2007.

- When Level 3 files code applications with NANPA, does it provide copies to the Commission of the code application, months to exhaust worksheet, and number utilization data for the specific rate center(s) in which additional numbers are requested, as required by Commission Order No. 23, 385? Did Level 3 file such copies in the instance of the request for which it seeks appeal? If so please provide evidence of such filings. If not, please provide those documents.
- Does Level 3 report numbers as "assigned" or "intermediate," as appropriate, in its utilization report? Please explain how Level 3's reporting complies with the Central Office Code Assignment Guidelines and the Thousand Block Number Pooling Assignment Guidelines.
- Does Level 3 report the name and contact information to NANPA of telecommunications carriers to which Level 3 assigns numbers?
- Does Level 3 report utilization and forecast data to NANPA for intermediate numbers controlled by non-carriers?

- Has Level 3 ever filed a CLEC Form 40 pursuant to N.H. Code Admin Rule Puc 434.04(a)(7)? If so, please provide a copy of the most recent CLEC Form 40 filed with the Commission.
- Did Level 3 file Lines by Locality data in its 2006 Annual Report, as required by Puc 449.04(f)? If so, please identify the date on which the filing was made.

Are any of Level 3's customers certified local exchange carriers? If so, please identify such carriers and the exchanges in which they provide local telephone service.

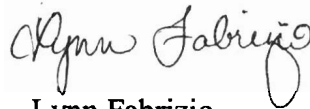

Please provide all evidence to support your assertion that NANPA has provided codes to IDT to provide the same type of services in New Hampshire for which Level 3 now seeks growth codes.

Is Level 3 willing to enter a stipulation agreement similar to the agreement between IDT and Metrocast in order to obtain numbering resources?

Please identify each New Hampshire exchange to which Level 3 provides dial tone for basic local telephone service.

Please let me know if you have any questions regarding the above.

Sincerely,

A handwritten signature in cursive script that reads "Lynn Fabrizio".
