Re: Public Service Company of New Hampshire
2008 Long Range Plans for Bulk Power Supply Facilities

Dear Secretary Howland:

In accordance with RSA 162-H:17, enclosed please find an original and nineteen copies of Public Service Company of New Hampshire's ("PSNH") 2008 Long Range Plans for Bulk Power Supply Facilities". In light of the requirements for a restructured electric utility industry as set forth in RSA 374-F, PSNH is filing the same information required by the Commission and Staff in previous years, that is: (i) Form A and Attachment 1 thereto, and (ii) Form B, Pages 1, 2, 3 and 4 thereto. Under RSA 162-H:17, III PSNH is exempt from filing long range plans with respect to generating facilities, because competition has been certified to exist pursuant to RSA 38:36 in PSNH's service territory. The copies of U.S. Geological Survey topographic maps will be filed separately under a motion for protective order in the interests of protecting critical energy infrastructure.

If additional information is required by the Commission or Staff, or if you have any questions regarding the above, please contact me at (603) 634-2961.

Very truly yours,

Gerald M. Eaton
Senior Counsel
