**Subject:** HAWC Loan Approval

Members of New Hampshire PUC:

As a resident of Atkinson who will be adversely impacted by HAWC's plans to draw down Atkinson's ground water, I am writing to ask that you do not approve the loan to HAWC to interconnect Atkinson Town Water with the Town of Hampstead. HAWC currently pumps millions of gallons of water for which it cannot account. There are numerous legal questions surrounding HAWC's activities as well as violation of the town ordinance.

This loan would enable a private entity to further profit from hurting private residents who will not be getting any subsequent compensation or even low-interest state loans to drill new wells on their soon-to-be-dry private wells.

Imagine this scenario: a private company runs my well dry and then sells my own water back to me at a profit. That is exactly the scenario you may be enabling by approving this loan. Please say, "NO"

Kindest regards,

Jonathan Bradley
