Re: DE 08-101 Ridgewood Providence Power Partners, L.P.'s
Certification Application for Class III Eligibility pursuant to RSA 362-F

Dear Ms. Haggerty:

On August 4, 2008, Ridgewood Providence Power Partners, L.P. (Ridgewood) submitted an application requesting certification of the Johnston landfill gas facility (Johnston facility) as eligible to produce Class III renewable energy certificates (RECs) pursuant to RSA 362-F, New Hampshire's Electric Renewable Portfolio Standard law. Staff has reviewed the application and recommended approval noting that the Ridgewood application was complete on February 16, 2009.

Class III eligibility requires a facility to have begun the production of electricity prior to January 1, 2006 using either eligible biomass technologies having a gross nameplate capacity of 25 megawatts or less or methane gas. The application indicates that the Johnston facility has a gross nameplate capacity of 12 megawatts, is fueled with methane gas and is located at 65 Shun Pike, Johnston, Rhode Island. The facility began commercial operation on January 20, 1990. The facility's NEPOOL generation information system facility code is MSS 451.

The Commission has reviewed the Ridgewood application and determined that it has provided all the necessary information to demonstrate that the Johnston facility is eligible for certification as a Class III facility. Therefore, the Commission hereby certifies that the Johnston facility is a Class III renewable energy source effective February 16, 2009 and is eligible to be issued New Hampshire Class III renewable energy certificates.

Attached please find a copy of the notice of this certification provided to the GIS administrator. The New Hampshire Renewable Portfolio Standard certification code for the Johnston landfill methane gas facility is NH-III-09-015.

Sincerely,

A handwritten signature in dark ink, appearing to read "Debra A. Howland".

Re: DE 08-101 Ridgewood Providence Power Partners, L.P.'s Johnston Facility
Certification as a New Hampshire RPS Class III Facility pursuant to RSA 362-F
New Hampshire Certification Code NH-III-09-015

Dear Mr. Webb:

Please be advised that, pursuant to NH RSA 362-F, the New Hampshire Public Utilities Commission has certified Ridgewood Providence Power Partners, L.P.'s Johnston landfill methane gas facility as a Class III renewable energy source effective February 16, 2009. Accordingly, Ridgewood Power Management LLC's Johnston facility is eligible to be issued New Hampshire Class III renewable energy certificates.

The Johnston facility has a gross nameplate capacity of 12 megawatts, is fueled with methane gas and is located at 65 Shun Pike, Johnston, Rhode Island. The facility's initial commercial operation date was January 20, 1990. Its NEPOOL GIS facility code is MSS 451. The New Hampshire RPS certification code is NH-III-09-015.

Sincerely,

A handwritten signature in dark ink, appearing to read "Debra A. Howland", written over a horizontal line.
