**Record Request No. 1:**

Please advise whether the Company's obligations in its default service contracts will interfere or conflict with or prevent the Company from implementing its compliance plan in response to the revisions to RSA 374-F:3, V(f).

**Response:**

No. The Company may comply with the requirement in RSA 374-F:3, V(f)(2) to provide to its customers one or more RES (renewable energy source) options through the provision of retail access to competitive sellers of RES attributes, which will not interfere with the Company's obligations in its default service contracts.
