Subject: PSNH RATE HIKE

Have just read of the PSNH request for a rate hike and am very irate at their proposed rate. I have NEVER used 570 kilowatt hours and if I did, would have to consider use of lanterns for light. PSNH has been advocating use of energy saving devices which are not cheap to purchase. Now they want to penalize customers for using less energy. What about a those retired, who live alone, on a budget? We will be forced to pay for low usage despite being encouraged from PSNH to conserve. I guess this is what is called the "trickle-down effect". The rich get richer and the poor get poorer. Thank you for allowing me to "vent".

Sincerely, Gloria Pelletier
