Concord, NH 03301

**Re: DG 09-049 – EnergyNorth Natural Gas, Inc. d/b/a National Grid NH Energy Efficiency Plan**

Dear Ms. Howland:

On behalf of EnergyNorth Natural Gas, Inc., d/b/a National Grid NH, I am writing to inform the Commission that pursuant to Section II(E)(1) of the Settlement Agreement approved by Order 24,995, the Company will be transferring funds into its Residential High-Efficiency Heating, Water Heating and Controls Program from other residential sector programs. Specifically, the Company will be transferring \$25,000 from its Building Practices and Demonstration Program and \$13,000 from its ENERGY STAR Homes Program in 2010, both of which constitute less than 20% of the program budgets.

These transfers are necessary to continue funding for the Company's Residential High-Efficiency Heating, Water Heating and Controls Program through early November 2010. The High Efficiency Heating, Water Heating and Controls Program has been very successful in 2010, enrolling approximately 820 customers who will achieve 156,900 in therm savings as a result of measures adopted this year. However, even with these budget transfers, the High Efficiency Heating, Water Heating and Controls Program will exhaust its 2010 budget on or around November 1. The Company anticipates closing the program in November 2010 given the lack of further available funds. Assuming the Commission approves the Company's proposed plan for 2011-2012 that is the subject of DE 10-188, the Company will reopen the High Efficiency Heating, Water Heating and Controls Program to enrollment on January 1, 2011.

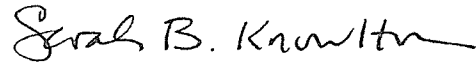

Debra A. Howland
