Subject: rate payer concerns

Pertinent to public Comment pursuant to Rule 203.18 I ask to have the following comments included in the record of the 09-067 proceeding and posted in the "docketbook".

As a NH ratepayer I would like to know if a ratepayer group can also intervene in this case on the basis that PSNH is bypassing potentially lower priced power producers at the expense of the rate payer, is threatening sustainability of the northern forest that is already suffering from liquidation harvesting at the expense of tourism, and is putting at risk the viability of other currently operating biomass facilities with almost certain chip price increases that will lead to potential pass through expenses to the rate payer. Thanks. Jonathan Edwards (Berlin NH)
