RE: DT 10-108 FairPoint Communications

Tariff Filing to Amend Local Measured Service

Corrected Letter

Dear Ms. Howland:

We do have a suggestion that we believe would further improve the revised tariff. We respectfully suggest that the Commission require FairPoint to include language, perhaps in Tariff No. 83 Section 5.2.2 A, regarding the total number of message units per month that are included in local measured service. We understand that this information is available elsewhere in the tariff, but we believe that including the total number of message units per month in the section that describes how many minutes are included in each message unit would make the offering more clear to those reading the tariff.

Finally, we hope that FairPoint is providing information about this option to customers who request new service, as well as to those who are seeking affordable telephone service options.

Thank you for your consideration, and please do not hesitate to contact us if you require further information.

Respectfully,

Meredith A. Hatfield

Consumer Advocate
