Subject: LAKES REGION WATER COMPANY

To Whom it My Concern:

We are writing to request that Lakes Region Water Company do not increase our water rates at 17 Pleasure Lane which is part of Balmoral Association in Moultonboro, NH. Our rates now are more expensive than our Massachusetts rates.

How can people afford homes in NH if this water company continues this. LRWC has requested a step increase to take effect in 2011. We cannot have a well in Balmoral?

My husband and I are working tomorrow and cannot make this meeting but please give this e-mail any consideration possible. We constantly have got calls from LRWC because of breaks and shut offs. This is inconvenient and bothersome. We do not want any more increases. Please read this at the hearing on September 24th at 10:00AM.

Thank you for your time.
