NH PUC Staff Responses
to Data Requests of Public Service Company of New Hampshire

Date Received: December 28, 2010
Request: PSNH – 52

Date of Response: January 11, 2011
Witness: George McCluskey

REQUEST

Did you compare the Laidlaw PPA pricing to: (i) the announced PPA pricing for Cape Wind; or (ii) any of the three biomass PPAs executed pursuant to competitive solicitations under the Connecticut Project 150 process? If not, why not? If so, what were the results?

RESPONSE:

No. Mr. McCluskey considers the pricing for the Cape Wind project not a sound basis for determining the public interest of New Hampshire customers and has no familiarity with the Connecticut Project 150 process.
