Note: "Total Calls Answered" is measured from when the call leaves the automatic menu system and enters the queue to be "live answered" by a customer service representative. However, a call that never leaves the automatic menu system is also included in the number of calls for purposes of the monthly and annual reported results.

*Note: The monthly service level has been consistently exceeding the 80% target and the 12 month rolling average has been increasing on a monthly basis. We anticipate meeting/exceeding the monthly service level target for the month of April 2015.
