**SUBJECT:** DM 11-171 Notice of MRDB Holdings LP d/b/a LPB Energy Management's intent to renew its registration as a provider of electric aggregation service; Staff recommendation

**TO:** Debra A. Howland  
Executive Director

MRDB Holdings LP d/b/a LPB Energy Management (MRDB) has notified the Commission of its intent to renew its registration as a provider of electric aggregation service. In its application MRDB also requested a waiver of Puc 2003.05(a) which requires the application for renewal be filed no less than 60 days prior to the expiration of the currently effective registration. MRDB's renewal application was due 60 days before its registration expiration date of July 20, 2011 and the Commission received the application on August 5, 2011. MRDB stated that delays resulted from a recent change in personnel and internal transfer of its records and files. MRDB further mentioned that it has complied with the obligations set forth in Puc 2000 and it did not have any changes to the information that was submitted to the Commission in its previous application. Considering the records of timely renewals since its registration in 2007, Staff recommends that the Commission grant the waivers for Puc 2003.05(a) for this renewal only.

The application has been reviewed and the Company has complied with the requirements of Puc 2006.02. Staff recommends that MRDB's application to renew its registration as a provider of electric aggregation service in New Hampshire be approved.
