Barbara Bernstein
NH Public Utilities Commission
21 S. Fruit Street, Suite 10
Concord , NH 03301

Dear Barbara,

This document is intended to provide the necessary supplemental information required for Renewable Energy Credit (REC) eligibility for our 60 kW solar array at East Kingston Elementary School at 5 Andrews Lane in East Kingston, NH.

Attached to this cover letter are the application requirements for REC eligibility as described in NH PUC 2505.02 (b) and our response to each.

Respectfully,

Jon Spencer

603-491-4427

Required application elements as described by NH PUC 2505.02 (b)

(1) The name and address of the applicant;

Included in original application.

(2) The name and location of the facility;

Included in original application.

(3) The ISO-New England asset identification number, if available;

Included in original application.

(4) The GIS facility code, if available;

Included in original application.

(5) A description of the facility, including fuel type, gross nameplate generation capacity, the initial commercial operation date, and the date it began operation, if different;

Description of facility: Photovoltaic Solar Array

Fuel type: Solar

Gross nameplate capacity: 60kW DC under standard test conditions

Initial commercial operation date: May 10, 2011

Date of beginning of operation: May 10, 2011

(6) If a biomass source, NOX and particulate matter emission rates and a description of pollution control equipment or proposed practices for compliance with such requirements;

Not applicable.

(7) All other necessary regulatory approvals, including any reviews, approvals or permits required by the department;

Included in original application.

(8) Proof that the applicant either has an approved interconnection study on file with the commission, is a party to a currently effective interconnection agreement, or is otherwise not required to undertake an interconnection study;

Included in original application.

(9) If a biomass facility, proof that a copy of the completed application has been filed with the department;

Not applicable.

(10) A description of how the generation facility is connected to the distribution utility;

The photovoltaic array is connected to the distribution utility (Unitil) through an approved electrical net meter.

New Hampshire Public Utilities Commission

Supplemental Information for REC eligibility at East Kingston Elementary School

(11) A statement as to whether the facility has been certified under another non-federal jurisdiction's renewable portfolio standard and proof thereof;
The photovoltaic array at East Kingston Elementary School, 5 Andrews Drive in East Kingston, NH has not been certified under another non-federal jurisdiction's Renewable Portfolio Standard.

(12) A statement as to whether the facility's output had been verified by ISO-New England;
Facility's output has not been verified by ISO-New England as of October 5, 2011.

(13) A description of how the facility's output is reported to the GIS if not verified by ISO-New England;

The facility's output is reported to the GIS through a Unitil-approved net-meter.

(14) An affidavit by the owner attesting to the accuracy of the contents of the application;

I, Clay Mitchell, Esq. PhD, attest to the accuracy of all information provided in this supplemental information document and the previously submitted application.

Clay Mitchell, Esq. PhD

(15) The name and telephone number of the facility's operator, if different from the owner;
Not applicable.

(16) Such other information as the applicant wishes to provide to assist in classification of the generating facility.
Not applicable.

Revision from REC eligibility application dated August 15, 2011:

Question 17 – Independent Monitor's Name

To be revised from Mike Turcotte
