ORDER OF NOTICE

On September 23, 2011, Public Service Company of New Hampshire (PSNH) and its Company filed a petition to establish its own default energy service (ES) rate for electric service rendered on and after January 1, 2012. Pursuant to RSA 369-B:3, IV(D)(4), customers who take ES from PSNHs will be billed at a rate equal to PSNHs actual, prudent and reasonable costs of providing the power, as approved by the Commission. In support of its petition, PSNH filed the testimony of Robert A. Baumann with related exhibits and appendices.

According to PSNH, the ES cost categories in the filing are consistent with prior energy ES filings with one potential major addition—the status of which will be updated prior to hearing. PSNH stated that its ES

100%

with its generation assets, the costs from supplemental energy and capacity purchases, certain ISO-New England ancil-

ary service charges), and the cost of compliance with New Hampshire's Renewable Portfolio Standard (RPS) and the Regional Greenhouse Gas Initiative (RGGI). PSNH

stated that the generation revenue requirements include non-fuel costs of generation including non-fuel operation and maintenance costs, allocated administrative and general costs, depreciation, property taxes, payroll taxes and a return on the net investment in its fossil and hydroelectric generating plants.

require an update are costs associated with the wet flue gas desulfurization (FGD) technology (scrubber) project at Mermetick Station. PSNH said that it did not include any costs associated with the project in the instant filing and that following the testing of the scrubber equipment, it will have a clearer understanding as to the scrubber's in-service date. PSNH stated that it will provide an update to the filing.

is operating and reducing emissions at the Merriamack Station. In this filing, PSNH provided its preliminary calculation of an ES rate of \$0.0839 per kilowatt-hour (kWh) for effect beginning January 1, 2012. PSNH stated that the preliminary rate was calculated using the latest available information and would represent a decrease of \$0.0050 per kWh from the current ES rate of \$0.0889 per kWh approved in Order No. 25,242 (June 28, 2011). PSNH said that as with prior ES rate filings, it would update the calculation of the ES rate prior to the hearing in this docket, including an update on the scrubber project.

PNMNAO filed a petition to set this 2012 standard cost recovery charge rate (Docket No. DE 11-217) on September 23, 2012. For administrative efficiency, the prehearing conference for both dockets will be scheduled for 1:30 p.m. on October 17, 2011, with Docket No. DE11-217 to be heard first, followed by 11-217 to be heard first, followed by a joint technical session for both dockets. In addition, PNMN on September 23 filed a proposal to establish an alternate default energy service rate ADE (Docket No. DE11-217).
