**SECTION 3 – OBLIGATIONS OF THE CUSTOMER (CONT'D)**

3.4.6 Identification and Rating of VoIP-PSTN Traffic

This section governs the rating and identification of VoIP-PSTN Traffic. In accordance with the Federal Communications Commission's Report and Order released November 18, 2011 (FCC 11-161) and Second Order on Reconsideration released April 25, 2012 (FCC 12-47), both in WC Docket No. 10-90, et al. (together, the "FCC Orders"): (1) intrastate VoIP-PSTN Traffic that originates on the Company's network and is bound for the Customer's end users is subject to the intrastate switched access rates set forth in this tariff until June 30, 2014, after which time it will be subject to interstate rates contained in the Company's Tariff F.C.C. No. 4 and in Section 15 herein; and (2) intrastate VoIP-PSTN traffic that is sent by the Customer for termination to Company end users is subject to interstate switched access rates set forth in the Company's Tariff F.C.C. No. 4 and in Section 15 herein.

[C]

The remainder of this section establishes the method of separating VoIP-PSTN Traffic from the Customer's traditional intrastate access traffic, so that VoIP-PSTN Traffic can be billed in accordance with the FCC Orders.

[C]

Calculation and Application of Percent-VoIP- Usage Factors

- a. The Company will determine the number of VoIP-PSTN Traffic minutes of use (MOU) to which interstate rates will be assessed by applying a terminating PVU factor to the total intrastate access MOU terminated by a Customer to the Company's end user. Beginning on July 1, 2014, the Company will also apply an originating PVU factor to the total intrastate access MOU originated by a Company end user and delivered to the Customer.
- b. Reserved for Future Use
- c. The Customer will calculate and furnish to the Company a terminating PVU factor representing the whole number percentage of the Customer's total terminating intrastate access MOU that the Customer exchanges with the Company in the LATA that is sent to Company and which originated in IP format and that would be billed by the Company as intrastate access MOU. Beginning July 1, 2014, the Customer will also calculate and furnish to the Company an originating PVU factor representing the whole number percentage of the Customer's total originating intrastate access MOU that the Customer exchanges with the Company in the LATA that is received from the Company and that is terminated in IP format and that would be billed by the Company as intrastate access MOU.
- d. The Customer shall not modify their reported PIU factor to account for VoIP-PSTN Traffic.
- e. Both the Customer provided originating PVU and the terminating PVU shall be based on information such as the number of the Customer's retail VoIP subscriptions in the state (e.g. as reported on F.C.C. Form 477), traffic studies, actual call detail or other relevant and verifiable information which will be provided to the Company upon request.
