

**Thomas J. Kennedy, P.E.**  
*Senior Associate*

**RANGE OF EXPERIENCE**

Mr. Kennedy has extensive experience in management, operations, maintenance, engineering, privatization and capital improvements of municipal and industrial water and wastewater treatment facilities that includes:

- Direct management of operations and maintenance of five publicly-owned treatment facilities ranging from a small ultra-complex advanced wastewater treatment plant serving Lake Tahoe, California to Chicago's Northside 330 MGD secondary treatment wastewater plant
- Involvement with Contract Operations projects for publicly owned and industrial wastewater facilities for more than twenty years with experiences ranging from pricing contracts, preparing proposals, and negotiating contracts to managing project startups and transitions
- Technical support and troubleshooting for numerous water and wastewater facilities operated under contract
- Participation in design review, training and the streamlining of capital improvement programs as a consultant to six large U. S. cities
