

1 AT&T, I worked at Continental Cablevision/MediaOne of New England, where I
2 spearheaded the design, implementation, and installation of its broadband telephone
3 network.

4 **Q. What are your duties at Comcast NorthCentral Division?**

5 A. I manage Comcast's Digital Voice operations in the NorthCentral Division. I
6 have direct responsibilities for voice products, services and operations. My duties
7 include operations, engineering, budget, and design of voice services.

8 **Q. Have you previously filed testimony or appeared as an expert witness before
9 a regulatory or legislative body?**

10 A. I have been in front of the regulatory bodies in New Hampshire, Massachusetts,
11 Connecticut, and the Federal Communications Commission, either as a live witness or
12 through pre-filed testimony.

13 **Q. What is the purpose of your testimony in this proceeding?**

14 A. The purpose of my testimony is to clarify for the record that although Comcast
15 Phone's cable affiliates provide broadband video and data service in some of the
16 exchanges served by the TDS Petitioners, customers in these exchanges do not have
17 access to Comcast voice services. Comcast Phone does not have authority to provide
18 service in TDS Telecom territory nor does it have an interconnection agreement with
19 TDS or any of the Petitioners.

20 **Q. In what areas of New Hampshire does Comcast Phone operate?**

21 A. In 1998, MediaOne Telecommunications, the predecessor of Comcast Phone,
22 petitioned for and was granted authority to provide local telecommunications services "in
23 its intended service area, Bell Atlantic's current service area," which is now Verizon
24

25

1 service territory. *Order No. 23,088, MediaOne Telecommunications of New Hampshire*
2 *Inc. Petition for Authority to Provide Local Telecommunications Services*, DE 98-208,
3 Order Nisi Granting Authorization (Dec. 15, 1998). Comcast Phone has only ever
4 operated in areas where Verizon has authority to operate in New Hampshire. None of
5 these areas overlaps with TDS Telecom territory. Exhibit A attached shows the areas
6 served, which are the communities where Verizon is shown in Column A.

7 **Q. What services does Comcast offer in TDS Telecom territory?**

8 A. Comcast Phone's cable affiliates¹ provide cable television video service and high
9 speed data service via cable modem in areas of New Hampshire where it is franchised to
10 do so. Additionally, Comcast acquired Adelphia Cable's assets in August 2006 and
11 currently provides these services in franchise areas formerly served by Adelphia Cable in
12 New Hampshire. All of the cities and towns listed in Exhibit A are the areas where
13 Comcast's cable affiliates are franchised and provide cable and broadband service. The
14 TDS Telecom areas where Comcast's cable affiliates offers these services in are Andover,
15 Antrim, Bennington, Boscawen, Chichester, Deering, Henniker, Hillsborough, Hopkinton,
16 Loudon, New London, Salisbury, Sunapee (Georges Mills), Wilmot, and Wilton.
17 Comcast only offers cable television video and high speed data service in these TDS
18 territories, not voice service.

19 **Q. Is Comcast Phone presently able to offer service in TDS service areas?**

20 A. No. At present, the PUC has not granted Comcast Phone the authority to provide
21 service in TDS territory, nor has Comcast Phone petitioned for such authority. Comcast
22 Phone currently has no interconnection agreement with any of the TDS Petitioners

23 ¹ Comcast of CT/Georgia/MA/NH/NY/NC/Virginia/VT, LLC; Comcast of ME/NH, Inc.; Comcast of
24 MA/NH, LLC; Comcast of NH, Inc.; Comcast Phone of NH, LL.

1 **Q. Does this conclude your testimony?**

2 **A. Yes, it does.**
