Re: DM 12-289 Notice of Electricity NH, LLC (dba ENH Power)'s Intent to Provide
Electric Aggregation Service

Dear Ms. Howland:

On September 28, 2012, Electricity NH, LLC (dba ENH Power) notified the Commission of its intent to provide electric aggregation service. The application is currently under review by Staff. ENH Power is currently a registered Competitive Electric Power Supplier in New Hampshire (see Docket DM 12-075), and this was noted as part of the pending aggregator application. This is the first instance of an entity seeking to be both an aggregator and a CEPS and, as such, the application raises some issues which require further investigation given the differing roles of a CEPS and an aggregator. Puc 2003.04(f) addresses the period of time for action on an application for registration as an aggregator and reads as follows:

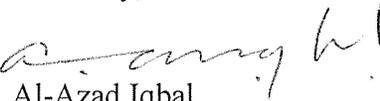

Unless the commission determines that an application for registration is incomplete or does not comply with the requirements of this section, the application shall either be approved in writing by the commission within 60 days of its submission, or it shall be deemed to have been approved 60 days after receipt.

Given the uniqueness of this application, and pursuant to Puc 201.05, Staff requests a waiver of the rule to extend the time to complete the review process by thirty days to fully explore the

circumstances and potential implications of issues related to the application. The applicant has been advised of the status of the Staff's review and is not opposed to an extension of time to complete the review.

Should you have any questions, please do not hesitate to contact me.

Sincerely,

A handwritten signature in black ink, appearing to read "Al-Azad Iqbal", with a stylized flourish at the end.

Al-Azad Iqbal
Utility Analyst III
