Summary

On March 24, 2014, the Commission received an application filed by Knollwood Energy of MA, LLC (Knollwood Energy) for the Dan Watts (Watts) residential photovoltaic (PV) facility. Information required to complete the application was received May 5, 2014, in an email correspondence from Michael Motta of Public Service Company of New Hampshire (PSNH). Additional applications were received from Knollwood on April 11, 2014, for Barrington Power, Rochester Truck Repair (Rochester Truck Repair); Barrington Power, White Mountain Pools, (White Mountain Pools); Richard Binder (Binder); and, Harry O Electrical Corporation (Harry O Electrical). The Rochester Truck Repair, White Mountain Pools, Binder, and Harry O Electrical applications were complete as submitted.

Knollwood Energy is requesting Class II New Hampshire Renewable Energy Certificate (REC) eligibility for these entities' photovoltaic (PV) arrays pursuant to RSA 362-F, New Hampshire's Electric Renewable Portfolio Standard law¹ and inclusion in the Knollwood Energy aggregation.

The Commission, in a non-adjudicative process, is required to issue a determination of whether a facility meets a particular classification within 45 days of receipt of a completed

application. The above-named facilities are customer-sited sources and meet the Class II eligibility requirements under RSA 362-F:4, II. Based on review of the applications, Staff recommends that the Commission certify the Watts facility as eligible for Class II RECs and to be included in the Knollwood aggregation effective May 5, 2014. Staff recommends Class II REC eligibility for the Rochester Truck Repair, White Mountain Pools, Binder, and Harry O Electrical facilities to be included as part of the Knollwood aggregation effective as of April 11, 2014.
