**Re: DG 14-180: Liberty Utilities (EnergyNorth Natural Gas) Corp.**

Dear Ms. Howland:

On behalf of Liberty Utilities (EnergyNorth Natural Gas) Corp. d/b/a Liberty Utilities, I enclose for filing an original and six copies of the Company's response to a record request that arose during the May 26, 2015, hearing in Docket No. DG 14-180 and for which the Commission reserved Exhibit 6. The response is a twelve-page document provided in the same format as Attachment 8 to the permanent rates Stipulation and Settlement Agreement (Exhibit 5). The first six pages of the document provide the average bill impacts for various rate classes using the proposed permanent and step adjustment rates effective July 1, 2015, as compared to base distribution rates in effect as of July 1, 2014, (prior to the rate case filing), and the last six pages provide those impacts with the additional inclusion of rate changes that would result from the Company's Cast Iron Bare Steel proceeding, assuming those rate changes are approved by the Commission. To provide a meaningful comparison to Attachment 8, the only changes were to reflect the distribution rates in effect as of July 1, 2014. No changes were made to the Local Distribution Adjustment Charge and Cost of Gas rates included in Attachment 8.

In the process of preparing Exhibit 6, the Company became aware of an input error that affected the average bill impacts in Attachment 8 for Commercial rate G-52. Specifically, due to a transposition error, the headblock rate on line 14 of Bates pages 31 and 37 were incorrect. Those pages have been corrected and the enclosed replacement pages should be inserted into the document. The resulting average bill impacts for a G-52 customer have been corrected accordingly.

Thank you for your assistance with this matter. Please don't hesitate to call should you have any questions.

Very truly yours,

A handwritten signature in black ink that reads "Sarah B. Knowlton".
