Summary

On July 23, 2014, Ground Energy Support LLC (Ground Energy Support), through its principal Matthew Davis, filed an application to serve as an independent monitor for geothermal useful thermal energy. On September 3, 2014, Mr. Davis provided official documentation of his certification as an International Ground Source Heat Pump Association (IGSHPA) accredited installer. IGSHPA certification is an acceptable qualification for certification as an independent monitor of useful thermal geothermal energy production, pursuant to Proposed Amendments to Puc 2500 as contemplated by Order No. 25,678 (June 19, 2014) issued in Docket No. DRM 14-095 effective as of July 23, 2014. Staff recommends that the Commission approve the application.

Analysis – Application for Independent Monitor of Geothermal RECs

Proposed Puc 2505.09 (e) requires an applicant seeking to be approved as an independent monitor to file an application with the Commission that includes:

1. *The name of the applicant.* The applicant is J. Matthew Davis, Ground Energy Support LLC.
2. *The business address of the applicant.* Ground Energy Support is located at 2 Washington Street, Suite 217, Dover, NH 03820.
3. *A copy of the license issued by the state of New Hampshire or such other qualifying certification as may be applicable.* Mr. Davis' is IGSHPA certified to monitor geothermal energy production.

4. *A description of how the applicant will be compensated for its services.* The independent monitor shall not receive compensation for monitoring services that is a function of the number of certificates issued to any source using the independent monitor.

Proposed Puc 2505.09(j). The following table was provided with the application:

<i>Description</i>	<i>Unit</i>	<i>Rate</i>
Large geothermal systems using heat meters. Assistance with meter specification, on-site inspection, assistance with application.	Per-hour	\$95.00
Small geothermal systems using runtime option. On-site inspection of meter, assistance with application	Flat fee	\$120.00
Fuel surcharge for site inspections in Cheshire, Sullivan, Grafton and Carroll Counties.	Flat fee	\$25.00
Quarterly reporting of data to NEPOOL-GIS	Quarterly	\$60.00

No source producing useful thermal energy shall use an independent monitor who is a member of the immediate family of the owner of the source, holds a direct or indirect ownership interest in the source, or who sold or installed the equipment used by the source.

Proposed Puc 2505.09(g). The duties of the independent monitor of useful thermal energy production shall be:

1. To perform an initial inspection of the source's meters for accuracy and capability to measure the useful thermal energy produced, unless the meter is owned by a distribution utility that has already inspected it pursuant to Puc 305;
2. To measure quarterly the source's useful thermal energy production used to qualify for certificates pursuant to the GIS operating rules; and
3. To report the production of useful thermal energy from the source and the REC calculation to the customer and the GIS quarterly in accordance with the GIS operating rules.

Proposed Puc 2505.09 (i). An independent monitor shall provide the Commission with notice prior to discontinuing services as an independent monitor. Proposed Puc 2505.09(k).

Recommendation

Staff has reviewed Ground Energy Support's request for Mr. Davis to be approved as an independent monitor of useful thermal geothermal energy production. Staff has found the application to be complete and Mr. Davis is IGSHPA certified. Therefore, Staff recommends that the Commission approve Mr. Davis as an independent monitor of useful thermal geothermal energy production, pursuant to Proposed Amendments to Puc 2500, Puc 2505.09, as contemplated by Order No. 25,678, issued on June 19, 2014 in Docket No. DRM 14-095 effective as of July 23, 2014.
