Re: DG 16-~~679~~ Rate case expense recovery surcharge

Dear Ms. Howland:

As per the approved settlement in DG 16-769, we have charged a surcharge to the steam bills to all customers of \$0.61/Mlb since November 2016.

The reconciliation for this was due February 15, but due an oversight on our part it did not happen until this month. Attached is the Staff's report and audit on the surcharge, and according to their review, we have over collected \$1,439.

Even though the filing is delayed, it will not affect the effective date of the rate change, which will apply to service rendered from March 1 on. We propose to credit all customers \$0.06/Mlb on steam bills for March, April and May as per Staff recommendation.

Yours Truly,

Peter Bloomfield, PE
President
