RE: DG 17-068 Liberty Utilities (EnergyNorth Natural Gas) Corp. d/b/a Liberty Utilities - Keene Division

Thank you for reading my comments on the rehearing of DG 17-068. While I am not a resident of Keene, I have friends out that way and any decisions made about energy affect us all. I live in Merrimack, NH.

I feel that as a resident of the state, I have an interest and voice in fossil fuel infrastructure expansion in any region of the state as well as our environment.

I am unclear how Keene can be committed to the goals of the Paris Climate Accord and proposing another pipeline. <http://nhpr.org/post/concord-fifth-nh-city-commit-paris-climate-goals#stream/0>

Why would NH PUC and Keene be considering more LNG at this time. The PUC needs to open this up to the public for review and comments.

Sincerely,
