PUC Commission  
NH

Dear Commission,

As a retiree I will not be receiving a 24% increase in Social Security benefits nor do I expect to see a 24% return on my investments. How then should I manage such an increase in an essential service as electricity? Dependent as we are upon this utility with little to no other alternative, we look to the Public Utilities Commission to guide us in these matters.

Would the New Hampshire Public Utilities Commission please reject the unrealistic Eversource (DE 19-057) residential rate increases.

Thank you for your representation
