REQUESTED ACTION

Authorize the Public Utilities Commission to award grant funds in the amount of \$174,000 to the Department of Resources and Economic Development, Division of Economic Development, Vendor #177445-B037, to partner with Lakes Region Community College and develop a new energy efficiency workforce training program, from Governor and Council approval through March 31, 2011. Funding is 100% Greenhouse Gas Emissions Reduction Fund.

Funding is available in account, Grants to Institutions – State, as follows with the authority to adjust encumbrances in each of the State fiscal years through the Budget Office if needed and justified:

02-81-81-811010-5453 Greenhouse Gas 125-O:23

EXPLANATION

The Public Utilities Commission (PUC) is charged with administering the Greenhouse Gas Emissions Reduction Fund (GHGERF) created by RSA 125-O:23 to support energy efficiency, conservation and demand response programs aimed at reducing greenhouse gas emissions generated within New Hampshire. On February 23, 2009, the PUC issued the first of a series of Requests for Proposals (RFP) for programs to be funded by GHGERF grants. In response to the February RFP, the Commission received 84 proposals requesting a total of more than \$50 million in grant funds. The DRED

proposal and eight others have been chosen for funding at this time. Attachment A provides additional information on the grant review and award process.

With these grant funds, DRED will partner with Lakes Region Community College (LRCC) to develop a new training program to help develop a skilled labor force for energy efficiency improvements to buildings. LRCC will offer a Building Analyst course at its campus and at 5 other community colleges (or other locations around the state). Scholarships of up to 50% will be offered to ensure that the program is affordable. Graduates of the program will be certified energy auditors. DRED/LRCC will also conduct "train the trainer" sessions to increase the instructor pool in New Hampshire, and will establish internships for newly trained workers.

Funds currently available in the GHGERF account, consisting solely of proceeds from quarterly auctions of carbon emission allowances, are approximately \$6.7 million. The combined total of the nine awards for this round is \$5,363,742. Along with \$1.2 million transferred to the Stay Warm NH program administered by the Office of Energy and Planning in February, 2009 by legislative mandate, upon G&G approval of these nine awards, total grant expenditures to date will be \$6,563,742. A second round of grant awards is anticipated in the near future.

In the event that GHGERF funds become no longer available, General Funds will not be requested to support this program.

Respectfully submitted,

Thomas B. Getz
Chairman

ATTACHMENT A – GRANT REVIEW PROCESS

The PUC issued a Request for Proposals on February 23, 2009. The RFP was developed in consultation with the state's Energy Efficiency and Sustainable Energy Board, created by the legislature in 2008 "to promote and coordinate energy efficiency, demand response, and sustainable energy programs in the state."

The RFP was circulated electronically to a list of more than 300 individuals and organizations known to have an interest in energy policy and programs, including members of the Energy Efficiency and Sustainable Energy Board (EESB Board); posted on the PUC and Office of Energy and Planning websites; advertised in the Union Leader on February 28, April 1 and April 2; and announced via press release to major media outlets in the state.

The PUC formed a grant review committee to evaluate each of the 84 proposals that were submitted. The team consisted of four members of the PUC - Chairman Thomas Getz, Commissioners Clifton Below and Graham Morrison, and Jack Ruderman, Director, Sustainable Energy Division – plus Eric Steltzer of the Office of Energy and Planning, and Richard Ober of the New Hampshire Charitable Foundation. Mr. Ober also serves as the Chair of the EESB Board.

The proposals were broken down into eight separate categories¹ in order to allow for an "apples to apples" comparison. The proposals were then individually evaluated by the review committee using a list of thirteen criteria specified in the PUC administrative rules for the Greenhouse Gas Emissions Reduction Fund (Chapter 2600). The committee then met as a group on a regular basis to identify the strongest proposals within each category, and to assign an overall letter grade to each proposal based on the consensus of the group.

An initial group of nine proposals has been selected from the job development, monitoring and measurement, outreach and education, and revolving loan fund categories at this time. These "foundational" proposals were selected as a first step because they provide the foundation for other energy efficiency programs or projects or will assist in evaluating the benefits of such programs or projects. The committee is continuing to meet and anticipates selecting a second group of fifteen or more additional proposals for presentation to Governor and Council at future meetings.

¹ The eight categories are: job development, monitoring and measurement, multi-objective, outreach and education, revolving loan fund, public entity, commercial entity, and non-profit/educational entity.

The State of New Hampshire and the Grantee hereby mutually agree as follows:

The State shall have no liabilities to the Grantee other than the Grant Amount.
- 4.5. Notwithstanding anything in this Agreement to the contrary, and notwithstanding unexpected circumstances, in no event shall the total of all payments authorized, or actually made, hereunder exceed the Grant limitation set forth in block 1.8 of these general provisions.

10. CONDITIONAL NATURE OR AGREEMENT. Notwithstanding anything in this Agreement to the contrary, all obligations of the State hereunder, including, without limitation, the continuance of payments hereunder, are contingent upon the availability or continued appropriation of funds, and in no event shall the State be liable for any payments hereunder in excess of such available or appropriated funds. In the event of a reduction or termination of those funds, the State shall have the right to withhold payment until such funds become available, if ever, and shall have the right to terminate this Agreement immediately upon giving the Grantee notice of such termination.

- 12.1. In the event of any early termination of this Agreement for any reason other than the completion of the Project, the Grantee shall deliver to the Grant Officer, not later than fifteen (15) days after the date of termination, a report (hereinafter referred to as the "Termination Report") describing in detail all Project Work performed, and the Grant Amount earned, to and including the date of termination.
- 12.2. In the event of Termination under paragraphs 10 or 12.4 of these general provisions, the approval of such a termination Report by the State shall entitle the Grantee to receive that portion of the Grant amount earned to and including the date of termination.
- 12.3. In the event of Termination under paragraphs 10 or 12.4 of these general provisions, the approval of such a Termination Report by the State shall in no event relieve the Grantee from any and all liability for damages sustained or incurred by the State as a result of the Grantee's breach of its obligations hereunder.
- 12.4. Notwithstanding anything in this Agreement to the contrary, either the State or, except where notice default has been given to the Grantee hereunder, the Grantee, may terminate this Agreement without cause upon thirty (30) days written notice.

SCOPE OF SERVICES

In exchange for receiving grant funds in the amount of \$174,000 from the New Hampshire Public Utilities Commission, the New Hampshire Department of Resources and Economic Development, Division of Economic Development (DED), agrees to increase the number of trained energy contractors in the NH workforce through collaboration with Lakes Region Community College (LRCC) and its developing Energy Contractor training program. The specific tasks that DED will accomplish are set forth in its proposal to the Public Utilities Commission dated March 23, 2009, and its Lakes Region Community College Timeline Revision 5/12/2009, both of which are hereby incorporated by reference. Specifically, DED agrees to accomplish the following, and to undertake any additional measures necessary to achieve the program goals set forth in its proposal:

1. Work with LRCC to craft outreach activities, with reliance on web pages as the primary method of outreach.
2. Solidify a Memorandum of Agreement with LRCC.
3. Encourage participation in LRCC's new contractor training program in Building Analysis (BA) by offering DED sponsored scholarships that will pay 50% of course tuition for students accepted into the program, as well as initial equipment costs.
4. Oversee the contract for the training program at LRCC. LRCC will perform the following:
 - a. Establish Learning Centers at five community colleges in NH (or other location favorable to demographics) with LRCC as the hub site that contracts with other colleges in the system.
 - b. Apply for Building Performance Institute providership status.
 - c. Acquire and adapt curriculum, hire and train staff on selected BA curriculum, and develop a "train the trainer" model to increase the instructor pool across New Hampshire.
 - d. Establish internship sites for newly trained workers and, where applicable, coordinate student shadowing of GDS Associate experts when conducting expanded energy audits.
 - e. Recruit and train building analysts and implementation contractors.
 - f. Market energy contractor program state wide, and coordinate marketing efforts with DED.
 - g. Monitor the newly trained workforce through employers.
 - h. Collect data on work performed, work retention, energy savings, carbon reduction, and other data points.
 - i. Meet quarterly with DED to provide updates on the program.
 - j. Obtain permission from students to use generalized information for the purposes of planning, case studies, program promotion, and reporting.
