3. Meeting Schedule
4. Other

**Summary of July 11, 2018 meeting**

- a. Assumptions for 2019 Plan
  - The group discussed the transmission and reliability assumptions with the Consultant (Paul Chernick) for the *Avoided Energy Supply Components in New England* report to gain a better understanding.
  - The group also tried to determine when and why the environmental adder was eliminated from the gas programs.
- b. Low Income Non-Energy Impacts
  - The consultant provided a memo asking for specific feedback for low income NEI study.
  - The group provided feedback which is summarized in the memo dated August 6, 2018 by Opinion Dynamics.
