- Introductions

Cost-Effectiveness Test/NSPM Study – Synapse (9-11 am)

Meeting Priorities

- Overarching issues
 - Commission precedent. What should this WG conclude from previous commission orders on cost-effectiveness?
 - Legislative direction. What should this WG do if there is little legislative direction for important impacts (e.g., participant impacts)?
 - Other DERs. To what extent should this WG consider implications for other types of DERs?
 - Multiple tests. What is the role of multiple tests in DER cost-effectiveness?
 - Reporting on stakeholder positions. How do we indicate consensus or lack of consensus in report to Commission?
- Discuss non-utility system impacts
 - Participant Impacts. Continue discussion from previous meeting
 - Other Fuel
 - Water Resource
 - Environmental
 - Public Health
 - Energy Security

If time allows

- Discuss how this WG will address the test inputs below
 - Discount rate
 - Assessment level
 - Analysis period and end effects
 - Analysis of early replacement
 - Free-ridership and spillover
- Matrix clean up: removing policies suggested by stakeholders and with few or no x's
- Stakeholder feedback on draft report
 - Stakeholder responses anonymous?
- Future meetings
 - July: Discuss complete report draft
 - August: Discuss final report
