

EM&V Working Group Meeting

September 4, 2018

9:00 AM-11:00 AM

Call-in Only

conference line: 303/872-5041, www.uberconference.com/sera-nh

AGENDA

(1) General & Follow-Up Items

- **Followup from August meeting**
 - SEP – Updated, ready to post, unless there are any outstanding comments

(2) Research Area Updates

- **Residential**
 - ENERGY STAR Products
 - Comments on draft report due Friday 9/7
 - Any items to discuss from comments already provided?
 - HEA/HPWES
 - Second data request coming in early Sept, will include project files for desk reviews/site visits, customer billing data (incl. NEI related data), annual reports
- **C&I**
 - Small Business/Muni Lighting
 - Updated load shapes—what's basis of current load shapes? Worth updating?
 - C&I Non-lighting
 - Budgeting for RGGI-related eval costs?
 - Sampling meeting today at 1:00, will cover: sampling strategy goals, organization of project types, stratification of the data, and project timeline.
- **Cross-Cutting**
 - Cross-cutting NEI Study
 - Any remaining comments on interview guide or Scope of Work
 - Data issues—merging tracking data with B/C model; industry sector data; etc.
 - EE Market Assessment
 - Key account data still outstanding
 - Revised survey and interview guides coming soon

(3) Topic Updates

- **Upcoming efforts:**
 - TRM and EE Potential Study – begin scoping in Fall after filing.
 - 2019 SEP – Plan a meeting for January to brainstorm/outline SEP update
 - Non-SEP efforts—e.g., MA/NH chiller market study. Implementation-focused, narrow scope.
- **NEEP events**—[M&V 2.0 workshop](#), Nov 7 in Burlington, VT (will include presentation of CT pilot results [partially NH-funded]), and [2018 annual summit](#), Oct 1-3 in Middletown, RI
