**ENERGY EFFICIENCY RESOURCE STANDARD (EERS) COMMITTEE
WORKSHOP: Exploring Codes & Standards in Context of 3-Year Plan**

The EERS committee will hold a public workshop for committee members and other stakeholders on how building energy codes and appliance standards might be further integrated into the energy efficiency plan for NHSaves.

The goal of the workshop is to provide background on codes and standards, share examples of how energy efficiency program administrators in different jurisdictions are taking actions to measurably increase savings from codes, and identify key issues and choices New Hampshire would need to address to move forward. The workshop will include presentations by Northeast Energy Efficiency Partnership (NEEP) and others.
