FORUM GUIDELINES:

The agenda was put together in an effort to group apparent affinities of interest so that presentations and questions would be as cohesive as possible within the specified time slots.

After the conclusion of the background discussions in the first hour, each commentator will be allotted 5 minutes for a direct presentation. To the extent that parties within a grouping find it practicable, the coordination of presentations is encouraged.

A number of the parties listed above have filed written comments only and do not intend to speak, but may or may not be present at the Forum. The Board members have seen the presentations ahead of time and the Board Chair will acknowledge the comments of parties that are either not present or choose not to make an oral presentation, and provide the opportunity for Board members to comment on the recommendations.

The goal of the Board is to adhere as closely as possible to the target times on the agenda. The Board also recognizes that, on the one hand, some parties will not be speaking and, on the other hand, that there may be considerable questioning at various points during the day. Accordingly, the Board will attempt to be flexible and asks that commentators be flexible as well. The intention of the Board is to close the proceedings by 4:00 p.m.
