

QUESTIONS AND ANSWERS

RFP #2019-001

NEW HAMPSHIRE PUBLIC UTILITIES COMMISSION

REQUEST FOR PROPOSALS

LMI Community Solar Grants

	Questions	Answers
1.	We have a non-profit agency that provides long term care for approximately a dozen disabled residents in a near-hospital-like setting. Addressing the minimum number of residential end users question only, might the facility meet the definition for the purposes of this RFP even if there are not 5 or more separate meters? Or, are 5 or more meters for the same utility a requirement?	If the facility, which is characterized as a “a near-hospital-like setting,” does not have individual separate residential dwelling units, then it is unlikely to be able to provide direct benefits to any residential customers. Residents of such a facility are not necessarily residential customers for purposes of the LMI grant program. Additional factual information would be required in order to make a definitive determination regarding this question.
