	Questions	Answers
1.	Please clarify what is meant by "total project cost" in item 1 of Section E. Project Development Costs and Financing on page 9. Our proposed solar array is part of a larger renovation effort and the scope of work related to the roof-mounted array will be a bid option. Given that information, does "total project cost" refer to the entire renovation or just the solar bid option?	In this reference, "Total project cost" pertains to the costs associated with the design, development, and interconnection of the solar array, including any other related program costs.
2.	Items 3 & 4 in the same section on page 9: Do you need details of the total renovation project's financing plan or just the financing for the proposed solar array?	In this reference, "financing plan" and "financial resources" pertain to financing obtained or financial resources available to cover costs associated with the proposed solar array only.
