Re: PSNH Application For Class I Renewable Energy Certificate Eligibility -
Smith Hydroelectric Facility - Docket No. DE 08-042
Supplemental Information - 20 year generation baseline data

Dear Ms. Howland:

Enclosed please find an original and six copies of Public Service Company of New Hampshire's (PSNH) supplemental information for its Smith Hydro Station application for determination of eligibility to produce renewable energy certificates consistent with the New Hampshire Public Utilities Commission Renewable Portfolio Standard (RSA 362-F and NH Code Admin. Rule Chapter Puc 2500).

The application documented a recent major capital investment at Smith Station and thus requested an eligibility determination for the incremental new production of electricity to qualify as a Class I source as defined by Puc 2502.06. This renewable hydroelectric facility is part of PSNH's generation portfolio used to provide energy, and more specifically renewable energy, to our customers.

We look forward to your review of this information and acceptance of PSNH's application for eligibility to acquire Class I renewable energy certificates. If you have questions or further information requests, please contact me or Elizabeth H. Tillotson or Senior Counsel Gerald M. Eaton at (603) 669-4000.

Sincerely,

William H. Smagula, P.E.
Director – Generation
