Re: DE 08-051, Pinetree Power Inc. Tamworth Facility  
Certification Application for Class III Eligibility Pursuant to RSA 362-F

Dear Mr. Shulock:

On April 1, 2008, Pinetree Power, Inc. submitted an application requesting conditional certification for the Tamworth Biomass facility (Tamworth facility) as a Class III facility pursuant to RSA 362-F, New Hampshire's Renewable Portfolio Standard legislation. On May 30, 2008, the Commission issued a secretarial letter granting conditional approval to the Tamworth facility and stated that it would fully certify the facility upon receipt of verification of compliance with emissions standards from the Department of Environmental Services (DES). On July 8, 2008, DES notified the Commission that test results indicate that the Tamworth facility meets the emission requirements and DES recommended that the Commission fully certify the Tamworth facility as a Class III renewable energy source eligible to produce renewable energy certificates.

The Commission has reviewed the July 8, 2008 letter from DES verifying compliance with the emissions standards required by RSA 362-F and now designates the Tamworth facility as eligible to produce Class III renewable energy certificates effective July 17, 2008.

Attached please find a copy of the notice of this certification provided to the GIS administrator. The New Hampshire Renewable Portfolio Standard certification code for the Tamworth facility is NH-III-08-005.

Sincerely,

A handwritten signature in dark ink, appearing to read "Debra A. Howland".

Re: Pinetree Power Tamworth Biomass Facility  
Certification as a New Hampshire RPS Class III Facility  
Certification Code NH-III-08-005

Dear Mr. Gower:

Please be advised that, pursuant to NH RSA 362-F, the New Hampshire Public Utilities Commission has certified the Pinetree Power Tamworth Biomass facility (Pinetree Tamworth) as a Class III renewable energy source effective July 17, 2008. Accordingly, Pinetree Tamworth is eligible to be issued New Hampshire Class III renewable energy certificates.

The Pinetree Tamworth facility is a biomass facility located at 469 Plains Road Tamworth, New Hampshire and has a gross nameplate capacity of 23.8 megawatts. The facility's ISO-New England asset identification number is 592. The New Hampshire Renewable Portfolio Standard certification code is NH-III-08-005.

Sincerely,

A handwritten signature in cursive script, appearing to read "Debra A. Howland".
