Re: DE 08-119, James P. Salonia's Certification Application for Class I Eligibility

Dear Mr. Salonia:

On September 17, 2008, you submitted an application requesting certification of your wind power facility (Salonia facility) as eligible to produce Class I renewable energy certificates (RECs) pursuant to RSA 362-F, New Hampshire's Electric Renewable Portfolio Standard law.

After you submitted your application, Staff learned that you did not install a revenue quality meter that would allow the New Hampshire Electric Cooperative (NHEC) to verify and monitor your facility's output. In June 2009, Thomas Palma of NHEC notified Staff that you are no longer interested in installing such a meter and are not interested in pursuing your application for Class I eligibility. Accordingly, the Commission considers your application withdrawn and has closed the above referenced docket without prejudice.

Sincerely,

A handwritten signature in cursive script, appearing to read "Debra A. Howland".

Debra A. Howland  
Executive Director
