Re:

DE 08-173, Conservation Services Group's

Certification Application for Class I Eligibility pursuant to RSA 362-F

Dear Ms. Stanton:

On December 30, 2008, Conservation Services Group submitted an application on behalf of Innovative Energy Systems requesting certification of the Development Authority of the North County landfill gas facility (DANC facility) as eligible to produce Class I renewable energy certificates (RECs) pursuant to RSA 362-F, New Hampshire's Electric Renewable Portfolio Standard law. Staff has reviewed the application and recommended approval noting that the Conservation Services Group application was complete on December 30, 2008.

Class I eligibility requires that a facility began operation after January 1, 2006 and that it produces electricity from certain renewable sources, one of which is methane gas. The application indicates that the DANC facility has a gross nameplate capacity of 4.8 megawatts, is fueled by methane gas and is located at 23400 NYS RT. 177, Rodman, New York. The facility began commercial operation on October 8, 2008. The facility's NEPOOL generation information system facility code is IMP 32723.

The Commission has reviewed the Conservation Services Group application and determined that it has provided all the necessary information to demonstrate that the DANC facility is eligible for certification as a Class I facility. Therefore, the Commission hereby certifies that the DANC facility is a Class I renewable energy source effective December 30, 2008 and is eligible to be issued New Hampshire Class I renewable energy certificates. For the issuance of any renewable energy certificates, please be aware that since the facility is located in an adjacent control area, the applicant will need to provide proof to the Commission pursuant to Puc 2504.01 (a)(2) that the associated electricity produced by the facility was imported into the New England control area. The applicant must provide such proof when it submits similar information to the GIS administrator as required by GIS Operating Rule 2.7(c).

February 11, 2009 Page two

Attached please find a copy of the notice of this certification provided to the GIS administrator. The New Hampshire Renewable Portfolio Standard certification code for the DANC landfill methane gas facility is NH-I-09-006.

Sincerely,

Debra A. Howland Executive Director

Encl.

Re:

DE 08-173 Innovative Energy Systems' DANC Facility

Certification as a New Hampshire RPS Class I Facility pursuant to RSA 362-F

New Hampshire Certification Code NH-I-09-006

Dear Mr. Webb:

Please be advised that, pursuant to NH RSA 362-F, the New Hampshire Public Utilities Commission has certified Innovative Energy System's Development Authority of the North Country (DANC) landfill methane gas facility as a Class I renewable energy source effective December 30, 2008. Accordingly, Innovative Energy Systems' DANC facility is eligible to be issued New Hampshire Class I renewable energy certificates.

The DANC facility has a gross nameplate capacity of 4.8 megawatts, fueled by methane gas and is located at 23400 NYS RT. 177, Rodman, New York. The facility's initial commercial operation date was October 8, 2008. Its NEPOOL GIS facility code is IMP 32723. The New Hampshire RPS certification code is NH-I-09-006.

Sincerely,

Debra A. Howland Executive Director
