Re:

DE 09-043, Evolution Markets on behalf of Gas Recovery Systems, LLC Certification Application for Class III Eligibility of its Fall River Landfill Facility Pursuant to RSA 362-F

Dear Ms. Ranade:

On March 6, 2009, Evolution Markets submitted an application on behalf of Gas Recovery Systems, LLC requesting certification of the Fall River landfill methane gas facility (Fall River facility) as eligible to produce Class III renewable energy certificates (RECs) pursuant to RSA 362-F, New Hampshire's Electric Renewable Portfolio Standard law. Staff has reviewed the application and recommended approval noting that the application was complete on May 4, 2009.

Class III eligibility requires a facility to have begun the production of electricity prior to January 1, 2006 using either eligible biomass technologies having a gross nameplate capacity of 25 megawatts (MW) or less or methane gas. The application indicates that the Fall River facility is powered by methane gas, has a gross nameplate capacity of 5.7 megawatts and began commercial operation on August 21, 2000. The facility is located at 1080 Airport Road, Fall River, Massachusetts. The NEPOOL generation information system facility code is MSS1432.

The Commission has reviewed the Evolution Markets application and determined that it has provided all the necessary information to demonstrate that the Fall River facility is eligible for certification as a Class III facility. Therefore, the Commission hereby certifies that the Fall River facility is a Class III renewable energy source effective May 4, 2009 and is eligible to be issued New Hampshire Class III renewable energy certificates.

June 18, 2009 Page two

Attached please find a copy of the notice of this certification provided to the GIS administrator. The New Hampshire Renewable Portfolio Standard certification code for the Fall River landfill methane gas facility is NH-III-09-024.

Sincerely,

Debra A. Howland

Re: DE 09-043, Evolution Markets on behalf of Gas Recovery Systems, LLC

Certification of its Fall River Landfill Facility as a New Hampshire RPS Class III Facility

Pursuant to RSA 362-F

New Hampshire Certification Code NH-III-09-024

Dear Mr. Webb:

Please be advised that, pursuant to NH RSA 362-F, the New Hampshire Public Utilities Commission has certified the Fall River landfill methane gas facility as a Class III renewable energy source effective May 4, 2009. Accordingly, the Fall River facility is eligible to be issued New Hampshire RPS Class III renewable energy certificates.

The Fall River facility has a gross nameplate capacity of 5.7 megawatts, is powered by landfill methane gas and is located at 1080 Airport Road, Fall River, Massachusetts. The facility began commercial operation on August 21, 2000. The NEPOOL generation information system facility code is MSS1432. The New Hampshire RPS certification code is NH-III-09-024.

Sincerely,

Debra A. Howland Executive Director
