Re: Interim Change in the Stranded Cost Recovery Charge Docket No. DE 08-179

Dear Ms. Howland:

Enclosed please find an original and six copies of the testimony and attachments of Robert A. Baumann containing a calculation and supporting documentation for a Stranded Cost Recovery Charge ("SCRC") applicable to customers who take service under PSNH's Delivery Service Tariff on and after July 1, 2010. PSNH currently calculates that there will be an increase from the current average rate of 1.18 cents per kilowatt-hour to an average rate of 1.24 cents per kilowatt-hour. This estimate includes actual costs through March and a projection of costs through December.

As was customary in the past, PSNH will file updated projections of costs and actual experience through April prior to the hearing in this matter; therefore, the SCRC rate PSNH ultimately requests may differ from the enclosed calculation. PSNH requests that the Commission reopen this proceeding and schedule a hearing so that a final determination of a rate may be made on or before June 28, 2010 to calculate and test all of the rate changes scheduled for July 1, 2010. Concurrently with this filing, PSNH is requesting the Commission to reopen the Default Energy Service Rate DE proceeding to enable PSNH to request a change in the Energy Service rate on July1, 2010.

Copies of this filing have been provided to the persons on the attached service list pursuant to Puc§203.02 and Puc §203.11.

## THE STATE OF NEW HAMPSHIRE

## BEFORE THE NEW HAMPSHIRE PUBLIC UTILITIES COMMISSION

# PREPARED TESTIMONY OF ROBERT A. BAUMANN

## MID-TERM ADJUSTMENT EFFECTIVE JULY 1, 2010

# 2010 STRANDED COST RECOVERY CHARGE RATE CHANGE

## Docket No. DE 09-179

1	Q.	Please state your name, business address and position.
2	A.	My name is Robert A. Baumann. My business address is 107 Selden Street, Berlin,
3		Connecticut. I am Director, Revenue Regulation & Load Resources for Northeast
4		Utilities Service Company (NUSCO). NUSCO provides centralized services to the
5		Northeast Utilities (NU) operating subsidiaries, including Public Service Company of
6		New Hampshire (PSNH), The Connecticut Light and Power Company, Yankee Gas
7		Services Company and Western Massachusetts Electric Company.
8	Q.	Have you previously testified before the Commission?
9	A.	Yes. I have testified on numerous occasions before the Commission.
10	Q.	What is the purpose of your testimony?
11	A.	The purpose of my testimony is to provide a detailed overview of PSNH's request for a
12		mid-term adjustment to increase the current Stranded Cost Recovery (SCRC) rate
13		effective on July 1, 2010.

## Q. What is PSNH requesting in this proceeding?

Α.

2 Α. In this proceeding, PSNH is requesting that the Commission approve a mid-term 3 adjustment to the average SCRC rate for all customers effective July 1, 2010. This rate, 4 as calculated today, consistent with the concurrent ES rate filing requires an increase in 5 the current SCRC rate of 1.18¢/kWh to a rate of 1.24¢/kWh. This SCRC rate was based 6 on actual results through March 2010 and an updated forecast for the remainder of 7 2010. PSNH is proposing the SCRC rate change to take effect July 1, 2010 consistent 8 with its simultaneous proposal to change the ES rate. In addition, in early June 2010, 9 PSNH will also file its proposal to change the Transmission Cost Adjustment Mechanism 10 (TCAM) effective July 1, 2010.

Q. Please describe the components of the SCRC and their application to this rate request.

The SCRC recovers certain costs under the authorities contained in RSA Chapters 374-F and 369-B. The PSNH Restructuring Settlement, approved in Order No. 23,549, defined PSNH's stranded costs and categorized them into three different parts (i.e., Part 1, 2 and 3). Part 1 is composed of the RRB Charge which is calculated to recover the principal, net interest, and fees related to Rate Reduction Bonds. Part 2 costs are "ongoing" stranded costs consisting primarily of the over-market value of energy purchased from independent power producers (IPPs) and the amortization of payments previously made for IPP buy-downs and buy-outs as approved by the Commission. In addition, the SCRC has a return component, consisting primarily of the stipulated return

1		on deferred taxes related to securitized stranded costs. The return is a benefit to
2		customers which reduces the overall SCRC level. Part 3 costs, which were primarily the
3		amortization of non-securitized stranded costs, were recovered fully in June 2006.
4		Pursuant to Order No. 25,056 issued in Docket No. DE 09-179, PSNH is currently billing
5		an average SCRC rate of 1.18¢/kWh which was made effective for the period January 1,
6		2010 through December 31, 2010.
7	Q.	Please describe the detailed support for the calculation of the average SCRC rate
8		provided in Attachment RAB-1.
9	A.	Attachment RAB-1, pages 1-3, provides a summary of 2010 cost information related to
10		Part 1 and Part 2 costs, amortization of securitized assets and ongoing cost activity.
11		Pages 4 through 7 provide the detailed cost information by month related to Part 1 and
12		Part 2 costs.
13	Q.	Describe what has transpired during the SCRC period beginning January 1, 2010.
14	A.	The current average SCRC rate of 1.18¢/kWh became effective on January 1, 2010 for
15		the twelve month period January through December 2010. The primary reason for the
16		recommended increase in the rate to 1.24 cents is due to lower market prices which in
17		turn increased the over-market portion of purchases from the IPPs included in the
18		SCRC.
19	Q.	How are PSNH's mandated purchased power obligations from IPPs valued in the
20		SCRC?

1	A.	The over-market portion of purchases from the IPPs is considered to be a stranded cost
2		and is recovered as Part 2 cost through the SCRC. The market value of the IPP is
3		reflected in the Energy Service rate, which PSNH is proposing to decrease on July 1,
4		2010 in a concurrent filing made under separate cover. This treatment is consistent with
5		the Restructuring Settlement and the Commission's Order in Docket No. DE 02-166.
6	Q.	When will PSNH provide an update to the proposed SCRC Rate?
7	A.	The filing will be updated in about 4 weeks to reflect actual results for April 2010 and for
8		any other significant changes.
9	Q.	Does the Commission need to make a determination at this time of the prudence
10		of the costs incurred since January 1, 2010?
11	A.	No. Those issues will be addressed in the Stranded Cost Recovery Charge
12		reconciliation which has traditionally been filed in early May following the calendar year
13		when those costs were incurred and collected.
14	Q.	Does PSNH require Commission approval of this rate by a specific date?
15	Α.	Yes. Due to the number of rate components that will change, PSNH requests approval
16		of the proposed SCRC rate by June 28 to allow sufficient time to test thoroughly and bill
17		on our regular schedule without delaying billing for service rendered as of July 1, 2010.
18		Therefore, PSNH requests that the Commission reopen this proceeding so that the
19		procedural schedule can be set to review this filing and approve the SCRC rate in a
20		timely manner.

Testimony of Robert A. Baumann Docket No. 09–179 May 4, 2010 Page 5 of 5

- 1 Q. Does this conclude your testimony?
- 2 A. Yes, it does.
