**RE: Union Telephone Company, Add Simplicity Packages**

Dear Ms. Howland:

Enclosed for filing is one original and 2 copies of the letter and the following tariff pages:

<b>Index</b>	<b>Ninth Revised Sheet 9</b>
<b>Part II</b>	<b>Original Sheets 1 &amp; 2</b>
<b>Section 10</b>	

The purpose of this tariff filing is to add Simplicity Packages at a discounted rate to Union Telephone Company's general exchange tariff. The Simplicity Packages are optional service bundles that include local, long distance, and deregulated services. Each package permits a customer to receive multiple services and features for a discounted flat monthly rate. The Simplicity Package options include: Simplicity Plus, Student Simplicity 3.0, and Complete Simplicity 7.0. Each of these packages allows the customer to choose a bucket of long distance minutes that meets their individual calling needs. The proposed effective date is May 1, 2010.

The revenue impact is estimated to be a reduction of \$26,157 in the first year of availability. This impact would equate to a 15% change in annual revenue associated with the customers subscribing to these packages.

Note: Some of the required supporting documents for this tariff filing are being filed as "confidential" under a separate cover letter. Documents included in the confidential filing include a support narrative of the offering, a revenue impact statement for the proposed rate changes, and a cost support document.
