Re: DE 10-128 Paul L. Button's Request for Certification as an Independent Monitor  
Pursuant to Puc 2505.09

Dear Mr. Button:

On May 5, 2010, you submitted an application seeking certification as an independent monitor pursuant to N. H. Code of Administrative Rules Puc 2505.09. You propose to provide monitoring services for owners of customer-sited sources in New Hampshire that qualify for New Hampshire renewable energy certificates (RECs). Staff has reviewed your application to become an independent monitor and recommended approval noting that you meet the requirements set forth in Puc 2505.09.

According to your application you qualify as an independent monitor pursuant to Puc 2505.09 inasmuch as you are a licensed Journeyman electrician by the state of New Hampshire and are certified as a building analyst professional by the Building Performance Institute, Inc.

The Commission requires all independent monitors to perform the tasks listed in Puc 2505.09 (h), which includes reporting annual output to the Commission by January 31. In addition, when you provide monitoring service to any New Hampshire source, your relationship with your client and your fee structure must meet the restrictions set forth in Puc 2505.09.

The Commission has reviewed your application for independent monitor status and determined that you have provided the necessary certification demonstrating that you meet the requirements set forth in Puc 2505.09. Therefore, the Commission hereby grants your request to become an independent monitor for customer-sited sources that qualify for New Hampshire RECs.

Sincerely,

A handwritten signature in black ink, appearing to read "Debra A. Howland".

Debra A. Howland  
Executive Director
