

Dear Commissioners:

As a New Hampshire resident concerned about jobs and the economic future of the North Country, I respectfully ask that you review and approve the PSNH/Laidlaw Power Purchase Agreement (PPA) as quickly as possible. Berlin and the surrounding area is bearing the brunt of the poor economy, and we need both the construction jobs and the long-term employment created by this project. Quick approval of the PPA will help clear the way to creating new jobs before the end of the year. Please do your part for a revitalized North Country economy by approving the PPA without unnecessary delay.

Sincerely,

Phillip Long
