

Dear Commissioners:

As a potential supplier, I respectfully ask that you grant your approval of the PSNH/Laidlaw Power Purchase Agreement (PPA) without any unnecessary delay. Those of us that work in the woods have been hit hard by the recession and severely limited on what we can supply to our customers. The Laidlaw project offers hope for a renewed demand for forest products that we so desperately need. Your timely approval will move this project from hope to reality. Thank you for your consideration.

Sincerely,

Michael P. Kelly
