NH PUC Staff Responses
to Data Requests of Public Service Company of New Hampshire

Date Received: December 28, 2010
Request: PSNH – 30

Date of Response: January 11, 2011
Witness: George McCluskey

REQUEST

Ref. pg. 32, what is Staff's opinion on the need for a long-term PPA for renewable independent power producers?

RESPONSE:

Mr. McCluskey is unable to respond meaningfully to this question without knowing the specifics of the renewable generator (i.e., is it a wind facility, a solar facility or a biomass facility), the term of the PPA, and whether the long-term PPA relates to all or some of the products produced by such renewable generator.
