Subject: DE 10-212, C&I Solar Rebate Program
Date: Thursday, March 10, 2016 10:18:22 AM

Hi Liz, thank you for taking the time to talk this morning. As discussed I wanted to express my support for the sliding scale rebate amounts proposed by Chris Anderson at Borrego Solar. He and I both spent many hours cranking through different cost and payback scenarios to come up with a sliding scale rebate amount that would equate to a 5 year payback.

The two tier program as it currently exists favors large and small projects but makes it very hard for a 150 or 200kW system to make financial sense. I believe that we want to encourage a lot of smaller systems as these are the ones that can be installed behind the meter to reduce on-site load.

Thanks again for all of the hard work that you and your colleagues have put into streamlining the system for applying for and obtaining C&I rebates.

Have a great day.

Best regards,

Ted Vasant
