Dear Ms. Howland:

The New Hampshire Electric Cooperative, Inc. proposes to change its current rates by changing its Stranded Cost Charge rate component effective with bills rendered on or after January 1, 2011. The effect of this Proposal, if there were no other rates changes, would be a decrease of 2.49% in total average revenue per kWh.

In support of the Cooperative's filing, please find enclosed an original and seven copies of the Prepared Testimony of Brenda C. Inman.

If you should have any questions, please do not hesitate to contact me at 603-536-8824 or [Inmanb@nhec.com](mailto:Inmanb@nhec.com).

Sincerely,

A handwritten signature in cursive script, appearing to read "Brenda C. Inman".
